

All Covered 
IT SERVICES FROM KONICA MINOLTA

THE ALL COVERED HEALTHCARE CLOUD

SECURELY RUN YOUR APPLICATIONS, FOCUS ON YOUR PATIENTS.

The All Covered Healthcare Cloud provides a highly available, compliant and scalable hosted infrastructure specifically designed for the healthcare industry. Rather than purchasing on-site servers, costly data center space and navigating the complexity of HIPAA compliance within IT, All Covered removes your infrastructure management challenges, decreases capital expenses and allows your practice to focus more on patient care while maintaining a secure and compliant environment.

In partnering with All Covered, you don't have to take on your cloud migration alone. We help assess your current environment and collaboratively build a cloud strategy and solution that is scalable and optimized for your practice needs now and into the future. As a true technology partner that understands the complexities of a healthcare environment, your organization will be assigned a world-class project manager and technology team to proactively manage your account and assist every step of the way.

HIPAA COMPLIANT

HEALTHCARE IT EXPERTISE

SECURE AND SCALABLE INFRASTRUCTURE

WHY THE ALL COVERED CLOUD?

HIPAA and Security Risk Assessments:

With a practice dedicated to Healthcare, we know how important it is to stay compliant, secure and reduce risk. Meet the security and compliance challenges of today's technology landscape and help build a comprehensive threat assessment to protect your data without straining your staff or your budget.

Flexible Pricing Model: Only pay for the resources you need when you need them, easily scale as your practice needs change.

Built-in Disaster Recovery and Business Continuity: Leverage our Enterprise-grade, cyber-resilient architecture. SOC 2 compliant facilities with a 99.995% uptime SLA. Redundant power, cooling, connectivity and security.

Automatic Backups: Backup data and retention policies based on your compliance needs.

Hosted EHR Application and Support:

Leverage a dedicated team with the expertise and certifications in the selection, implementation and integration of leading EHR systems. Securely and seamlessly run your EHR system in the All Covered Healthcare Cloud.

Enhanced Security and Managed IT Services:

Include patching and AV for all contracted servers. SIEM, UTM, HIPAA/ Security awareness training and other cybersecurity services available to bundle.

Secure Remote Access: Access to your practice resources from anywhere, anytime. Easily grant access when needed regardless of their physical location.

Op-Ex vs. Cap-Ex: Improve cash flow by eliminating the need for capital expenditures associated with new hardware.

COLOCATION AVAILABILITY

Your move to the cloud is not an all or nothing decision. Have existing physical servers, VoIP hardware, or other appliances? With the All Covered Healthcare Cloud, you can move the necessary servers to our cloud infrastructure and collocate the servers and devices you still need. With your move to the cloud, you gain access to our SOC 2 certified data centers, enterprise security, compliance controls and access to a world class technology staff.

PROVEN EXPERTISE AND A TECHNOLOGY PARTNER YOU CAN TRUST

Since 1997, All Covered has been a trusted partner to Healthcare organizations of all sizes across the country. Through our true technology partner approach, we help simplify the planning, maintenance and oversight of your practice infrastructure, cybersecurity and compliance needs. We empower organizations with enabling technology and healthcare specific solutions and services so that our clients can simply focus on providing the best patient care.
